SOLDIERS HUNT UNION MINERS

Strong Arm of Martial Law Establishes Order in Independence After Dynamite Outrage and Attack on Militia.

SHERIFF AND CITY MARSHAL FORCED TO RESIGN OFFICES

Wholesale Arrest of Unionists Follows the Stirring Events of Yesterday—Regulators Sweeping Small Towns and Mountains.

VICTOR, Col., June 7.—A reign of terror, brought on by yesterday's dynamiting plot, followed by rioting and an assault upon the militia, exists in the Cripple Creek mining district.

Armed men throng the streets and conflicts are hourly occurrences. Militiamen are marching hither and thither, making arrests by wholesale. A number of union miners have already been placed in the military bull pen, and others are being gathered in at frequent intervals.

City and county officials have been compelled to resign their offices because of their reputed sympathy. As near as can be estimated, fifteen are dead and a score or more injured as a result of the events leading up to the conditions above described.

TOWN UNDER MARTIAL LAW.

Suspension of City Marshal O'Connell yesterday afternoon, the forcing of Sheriff H. M. Robertson and Coroner James Doran to resign, the placing of the city under military control, the wholesale arrests of unionists, and the announcement by the authorities that no quarter or mercy will be shown anyone evidencing the slightest disposition to make trouble, served wonderfully to restore peace and bring order out of crime and chaos, which reigned yesterday and the early part of last evening.

The authorities now have the situation well in hand and there are sufficient troops and deputies on the ground to maintain order.

The arrest of unionists has demoralized any further opposition to law and order and all that is needed to maintain peace is a firm hand on the part of the officials, and the swift and ample punishment for lawbreakers.

Will Disarm Citizens.

Sheriff Bell, who succeeded Robertson yesterday afternoon, announced this morning that all citizens must go unarmed and anyone who disobeys this order will be promptly arrested by the militia. Resistance to his orders means shooting, and no interference of any kind will be tolerated. Bell is a leading member of the Citizens' Alliance, and his mandates will be complied with.

A full list of casualties yesterday, beginning with the dynamite outrage at the Independence depot, and ending with the assault upon the union miners' hall by the militia, numbers twenty-one, including fifteen dead and fourteen wounded.

Of the dead, thirteen lost their lives as a result of the explosion at the depot. The other two were killed during the first riot in Main Street. Six non-unionists were wounded by the explosion, and eight persons were wounded during two riots, four of them in the miners' union hall. The latter includes John Calderwood, one of the most prominent union leaders in the camp, and manager of the Union Store at Anaconda.

Regulators Busy.

The vigilance committee organized yesterday is still at work in the small towns in the district, arresting unionists and bringing them to Victor, where they are placed under heavy militia guard. These arrests will continue until every man of any influence in union circles is a prisoner, when it is understood they will be placed on board a special train and deported from the country. Upon the return of Governor Peabody from St. Louis tonight or tomorrow morning, it is believed martial law will be declared and kept in force indefinitely.

Mine owners and the Citizens' Alliance will then formulate new plans to rid the district of anyone connected with the Western Federation of Miners, and deportations will be the order of the day, the same as has been the case at Telluride for the past few months.

A revised list of dead and injured at Independence follows:

L. Shanklin, Charles Barber, Henry A.

Major H. A. Naylor was appointed provisional marshal in place of O'Connell, who yielded, although he was strongly urged by union miners to resist. Naylor then swore in all his militiamen as deputy marshals and set out to make wholesale arrests of union miners on the slightest information that he could obtain.

Shortly after Marshal O'Connell was deposited troops arrested him and three employees of the "Daily Record," a union newspaper, and locked them all in the bull pen, which is rapidly filling with union miners.

The anti-union element seems to be in control of the situation, and all union men are under suspicion. Detectives are watching the leaders.

Wholesale Arrests Follow.

Major H. A. Naylor was appointed provisional marshal in place of O'Connell, who yielded, although he was strongly urged by union miners to resist. Naylor then swore in all his militiamen as deputy marshals and set out to make wholesale arrests of union miners on the slightest information that he could obtain.

MISS ROOSEVELT AT THE WORLD'S FAIR.

GUEST OF THE LADY MANAGERS.

The Daughter of the President Was in This Building With President Francis, of the Exposition, and Mrs. Daniel Manning, President of the Board of Lady Managers.

Next to President Francis, at the Extreme Right of the Picture, is Miss Warder, of Washington, Who Accompanied Miss Roosevelt to St. Louis.

REORGANIZATION OF THE RED CROSS

Resignations of Trustees and Former Officers.

Will End Old Dissensions

Meeting Will Be Held on June 16 at Which Final Action Will Be Taken.

All the members of the board of trustees and nearly all the officers of the Red Cross Society have tendered their resignations to former Secretary John W. Foster and former Secretary Richard Olney, and unless there is a change in program at the meeting to be held at the Arlington Hotel one week from Thursday, the resignations will be accepted. This action is taken on the recommendation of the former Secretaries and other prominent men connected with the society, and with the commendation of President Roosevelt, for the purpose of putting an end to the dissension which has threatened to disrupt the organization. An entirely new board will be elected, and it is said that neither members of boards of the remnants nor the Red Cross boards, as at present constituted, will be appointed.

A number of important conferences have been held during the last few days for the purpose of perfecting a plan which will build up the organization and make it superior to all such societies throughout the world. At present it is the only Red Cross organization in which there is any kind of dissension. President Roosevelt has been informed of the results of these conferences, and he and others who have the good of the organization at heart are doing all they can to prevent any further trouble.

President Interested.

The President has talked the matter over with former Secretaries Foster and Olney, Oden Smith, and Mrs. John A. Logan, at the White House. It is said he favors the plan of reorganization, and will do all he can to make the new body the best in the world, if the dissension ceases. President Roosevelt is much interested in the upbuilding of the society.

Said an officer of the society: "This move does not in any sense mean that there is any more dissension in the organization. Former Secretaries Foster and Olney are in charge of the work of reorganization, and the matter was argued out thoroughly at the last conference. The resignations were agreed upon, and it was thought better to appoint a new board of trustees composed of the best men in the country, around whom all of the old supporters of the society could gather. These men may be selected June 16. If they are, the work of reorganization will start then. It is the intention to make the society the best and strongest in the world."

It is probable that there will be a struggle at the meeting of the Red Cross at Arlington, June 16. It is reported that both sides are working hard to obtain control, and that efforts are being made in every direction for proxies.

AMERICAN FLORISTS MAY HAVE HEADQUARTERS HERE

The Florists' Club of Washington will hold a meeting tonight for the purpose of taking action to obtain for Washington the permanent headquarters of the Society of American Florists and Ornamental Horticulturists, the proposed organization which is attracting the attention of florists in all parts of the country.

The local florists will endeavor to co-operate with the Board of Trade and the Business Men's Association.

RE-ENFORCE BRITISH IN TIBET.

SIMLA, India, June 7.—Two regiments of Junjabs, a mountain battery, and a detachment of engineers have been ordered to re-enforce the British expedition in Tibet.

Best Lumber, \$1.50 Per 100 Feet.

BOOKMAKER YOUNG IS LAID TO REST

Gotham Cab Mystery No Nearer Solution.

Woman Seeks Her Release

Habeas Corpus Proceedings Up Today. Actress in Court Dressed All in Black.

NEW YORK, June 7.—Caesar Young, the bookmaker who was mysteriously shot and killed Saturday morning while riding in a cab with Nan Patterson, an actress, was buried today in Kensico Cemetery.

The "cab mystery," as the death of Young has been termed, is no nearer solution. Nan Patterson still languishes in jail, the coroner having refused to release her on bail, after having previously fixed her bond at \$5,000. The district attorney was responsible for this action. He claimed it was not a case in which the coroner could fix the bond, and that official surrendered. Mrs. Patterson's lawyers will today endeavor to have the girl released on a writ of habeas corpus.

Sleuths Hard at Work.

The police are working hard to learn who owned the revolver with which Young was shot. They have learned that the manufacturers of the weapon in Springfield, Mass., sold it to the firm of Schoverling, Daly & Gates, of 302 Broadway, this city, in 1898. That firm could not tell much about the revolver except that they thought it was one of a lot shipped to San Francisco. Both Young and Mrs. Patterson have spent much time in that city.

A new theory has been advanced to account for Young's death. It is that Mrs. Patterson, driven nearly insane by the knowledge that Young was to leave her, attempted to commit suicide, and that Young, while struggling for the possession of the weapon, was accidentally shot and killed.

Faces Immense Crowd.

The habeas corpus proceedings came up before Judge Clarke, in the supreme court, this morning. Mrs. Patterson was brought over from the Tombs and had to face an immense crowd of curious spectators. She was dressed entirely in black, and wore a black veil, which she kept over her face during the brief proceedings.

Assistant District Attorney Lansford, when the case was called, asked for a postponement until this afternoon. He said notice had been served on the district attorney's office late yesterday afternoon, and that he had not had sufficient time to prepare for the proceeding. The motion to adjourn was granted.

Deck Hand's Story.

James J. Dooley, a young deck hand on a steambot, informed Henry W. Unger, counsel for Mrs. Patterson, that he sold to Young the revolver with which the shooting was done.

Dooley, in a straightforward manner, and it is apparent that he is truthful, but circumstances would seem to prove that he is mistaken, and that the revolver he disposed of is not the one so important in the present case.

Dr. Philip O'Hanlon, coroner's physician, who made the post mortem examination of the body of Caesar Young, made a statement, in which he said that the wound which caused the death of Young could have been inflicted by him only if the revolver had been pushed far to the left and the trigger pressed.

Make of the Gun.

The make of the revolver is such that it is impossible for it to be discharged in the manner described by Dr. O'Hanlon.

Moreover, a revolver held in the way

SHE HAD GAY TIME AT ST. LOUIS FAIR

Miss Roosevelt Visited Pike Incognito.

Also Distinguished Guest

Formal and Informal Happenings Combined to Give Her Much Enjoyment.

Miss Roosevelt, who has returned from St. Louis where she went to see the Louisiana Purchase Exposition, had the time of her life. It was her privilege to see the World's Fair both incognito and as the most distinguished of official guests.

Known to only the few of her escort, she has galloped down the Pike on the back of a donkey, and the attraction of all she has been the belle of an international ball given in her honor in the palatial German pavilion.

Couldn't Wait a Minute.

Miss Roosevelt arrived in St. Louis Thursday evening, on a visit to her friend, Miss Irene Catlin, daughter of Daniel Catlin, of Vandewater Place. Two hours after her reception at the Catlin home, showing no fatigue from her journey, she headed a party of young people, on a tour of the exposition's amusement street, which did not end until the gates closed for the night. Friday Miss Roosevelt visited the exposition in the capacity of its guest, and became the recipient of so many tributes that, for a time, the records established by Prince Pu Lun, Prince Henry and even her distinguished father, on their visits to the World's Fair city, threatened to be broken.

A Luncheon on Her Card.

After attending the dedication of the Illinois State Building, the young lady hurried to a luncheon in waiting for her at the West pavilion where Mrs. George E. Markham served as hostess. Later, she was formally received at the Philippine Reservation where chiefs of the various tribes paid their respects to the first young lady of the land, and the dog-eared head-hunters performed their weird dances for her amusement.

It was growing dark when Miss Roosevelt completed her first day of sight-seeing, and she returned to the home of her host only to prepare for another conquest on the Pike. Miss Alice has had her fortune told by a dark-skinned wizard in the Streets of Cairo, and learned that she is soon to be married to a blonde multi-millionaire. She has climbed to the heights of the Tyrolean Alps, looked back through creation to the beginning of time, applauded patriotically the reproduction of the battle of Santiago, and quickened her step to the music of the Turkish dances.

Other Entertainments.

Another reception was prepared for her on the second day's visit, Saturday, when Mrs. Howard Elliott entertained the party at the German restaurant. Saturday afternoon was spent at the Country Club, where she witnessed a polo game and attended a dinner and dance in the evening.

Sunday afforded the strenuous young lady her single day of rest in St. Louis. Her only appearance in public was when she attended the morning service at one of the fashionable churches.

On Monday, the daughter of the President, was the guest of Mrs. Daniel Manning, president of the world's fair board of lady managers, at a dinner at the Manning residence, 439 Berlin Avenue. At night she was the guest of Dr. Theodore Lewald, the German commissioner, at a ball given in her honor at the Casino.

Accompanying Miss Roosevelt was Miss Warder, of Washington. Both young ladies found many friends among the world's fair visitors, and these helped to make pleasant her stay.

WARSHIPS DUEL AT PORT ARTHUR

Russian Squadron Reported to Have Been Sent Against Admiral Togo's Fleet—Hot Battle in Gulf of Pechili.

JAPANESE, BY LAND AND SEA, ATTACK BELEAGUERED CITY

Flashes of Fire and Thundering of Guns in the Night for Three Hours—Tale Carried by Vessels and Coast Dwellers.

CHEEFOO, June 7.—A junk just arrived here reports that the Japanese tried to advance on Port Arthur by land and sea last night. The Russians sent out their Port Arthur squadron to give battle.

Various other reports would tend to confirm the report brought by the junk. These reports indicate that a hot naval battle was fought in the Gulf of Pechili.

Steamers passing Liao-Tshan promontory, south of Port Arthur, heard firing. Reports from Teng-Chan state that heavy firing was heard there from 11 p. m. to 2 a. m.

FIRING HEARD IN MANY PLACES.

Vessels from Mia-Tao Islands confirm these reports, while residents of the hills near here state they saw flashes in the direction indicated. A report received from northwest of this place says firing was distinctly heard there last night.

A junk which has arrived from Dalny reports heavy firing in the vicinity of Port Arthur all day yesterday. The officers of the junk deny the report that a Japanese ship was sunk off Talienwan.

Word reached here today that a troop of Cossacks had been routed by a force of Japanese near Taku-Shan, Manchuria.

RELIEF FORCE ENCHAINED.

ROME, June 7.—A dispatch from Tokyo says that two Russian divisions, between Kaiping and Fuchau, apparently moving on Kwantung, which is in the rear of Port Arthur, had an engagement on Wednesday last with advance parties of Japanese thirty-two miles south of Kaiping.

The Japanese have strongly occupied Port Adams to oppose the advance of the Russians.

Aerogram Reveals Plan To Relieve Port Arthur

ROME, June 7.—A telegram from Tokyo states that a Russian wireless message from Port Arthur has been intercepted by the Japanese, which indicates that the Russians at the port plan to attack simultaneously with General Kuropatkin's advance to try to dispose of the Japanese force now threatening Port Arthur.

General Kuropatkin plans attacking the Japanese at Liao-Tung Peninsula from the rear, hoping by a double attack on their front and rear to annihilate the entire force.

As a result of this information, says the telegram, an entire division is being dispatched from Tokyo, part of which will land at Dalny, and the remainder at Kinchow. Japan expects to have an army of 20,000 ready by the end of the week to meet any emergency.

Relief Plan Criticized.

ST. PETERSBURG, June 7.—Conservative military officials here exhibit much uneasiness over the reports of General Kuropatkin's advance to the relief of Port Arthur, as General Oku, in

command of the second Japanese army, which is stationed north of Port Arthur, will have a chance to hold the Russians in check, while General Kuropatkin, in command of the first Japanese army, will make a flank movement. These military officials also think it unwise to stake the whole issue of the campaign upon one battle, in which the Russians will be at a disadvantage.

The opposition to Admiral Alexieff, the victor of the Far East, and others of the czar's advisers, is growing, for it is said, they place political above military considerations.

Czar to Kuropatkin.

CRAKOW, Poland, June 7.—The Socialists here publish what they claim is the text of a telegram sent by the czar to General Kuropatkin after the last council of war. The telegram, as published, reads:

"The honor of Russian arms demands that Port Arthur be held. I order you, without delay, to concentrate all efforts to repel the enemy's attacks on this stronghold, and make it possible for the garrison there to maintain its position victoriously."

Yamagata to Command Troops in Manchuria

ROME, June 7.—A dispatch received from the commander of the Italian squadron in eastern waters says General Yamagata is preparing to take personal command of the Japanese forces in Manchuria.

General Oku will command the assault on Port Arthur.

Correspondents May Go South.

MUKDEN, June 7.—The Russian authorities have removed the restrictions on correspondents, who have been granted permission to proceed south.

LONDON, June 7.—Baron Hayashi, the Japanese minister to England, has an official dispatch from Tokyo containing a report by Admiral Togo on the clearing of mines in Talienwan Bay.

The report reads: "The clearing operation at Talienwan is progressing satisfactorily."

Said to Be the Yashima.

A dispatch from Chefoo asserts that the Japanese vessel reported to have been sunk by a mine in Talienwan Bay yesterday was the battleship Yashima. The dispatch is not credited, inasmuch as Admiral Togo's official report, made public this morning, regarding the clearing of mines makes no mention of any disaster.

The Yashima was launched in 1898. She is a battleship of 12,517 tons displacement, an indicated horsepower of 15,887, and a nominal speed of eighteen knots.

JAPAN'S FIRST ARMY FIGHTING ITS WAY TOWARD THE NORTH

LONDON, June 7.—A dispatch to the "Telegraph" from Shongtatsze says that heavy artillery firing was heard this morning in the direction of Tahnaw, east of Liao-Yang. Natives report that the Japanese first army is advancing and fighting daily. Hundreds of Russian wounded are arriving at Tashichiao.

A dispatch from St. Petersburg says that General Kuropatkin has now been re-enforced by 40,000 of the Fourth Siberian army corps, bringing the available force at Liao-Yang up to 200,000 men.

TIENTSIN, June 6.—The Russians have evacuated Shingting (western Manchuria), and are said to be joining the troops en route to Mukden.

Heavy firing was heard at Kin-Chow this morning in the direction of Liao-Yang. The Japanese movements are unknown here.

ST. PETERSBURG, June 6.—General Kuropatkin telegraphs the czar: "On June 3 Cossacks were fired on by Japanese infantry occupying a fortified position on the heights near Kuotela."
